**Subject:** Policy Memorandum 210.10-39/ 220.8-07/ 226.20-31: Horizon Organic Infant Formula with Iron

**To:** All CN Directors  
Southeast Region

This memorandum is in answer to a question raised by the Oregon State Agency concerning whether or not FNS will consider including Horizon Organic Infant Formula with Iron in the "Child Nutrition Programs Iron-Fortified Infant Formula That Do Not Require Medical Statements List."

**FNS Response:** FNS has contacted the U.S. Food and Drug Administration (FDA). Horizon Organic Infant Formula with Iron, milk-based, has been recently registered with FDA and meets the definition of iron-fortified formula specified in 7 CFR 226.20 (b) (2). Therefore, it is an infant formula that does not require a medical statement to be served in the Program.

If you have further questions, please contact this office.

PEGGY FOUTS  
Regional Director  
Special Nutrition Programs
